

RABIYA ZAHEER

rabbiyazaheer8@gmail.com | <https://www.linkedin.com/in/rabiya-zaheer/> | Lahore, Pakistan

SUMMARY

Computer Science undergraduate at Government College University, Lahore, with hands-on machine learning experience across classification, regression, and NLP tasks. Skilled in Python, scikit-learn, TensorFlow, and pandas, with project work spanning CNNs, TF-IDF feature extraction, and model evaluation. Seeking a Machine Learning internship to apply data preprocessing, model training, and performance optimization skills in a production environment.

EDUCATION

BS Computer Science — Government College University, Lahore

Expected Graduation: June–July 2027

TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript

ML Libraries: scikit-learn, TensorFlow, pandas, NumPy

Web Technologies: HTML, CSS, JavaScript

Database: MySQL

Tools & IDEs: VS Code, IntelliJ IDEA, Notepad++

PROJECTS

MNIST Digit Recognition

- Developed a handwritten digit recognition system using the MNIST dataset
- Implemented a neural network/CNN model for image classification
- Improved performance through training, validation, and hyperparameter tuning

Email Spam Classifier

- Built a machine learning model to classify spam and non-spam emails
- Applied text preprocessing and TF-IDF feature extraction
- Trained a Logistic Regression model and evaluated performance metrics

California House Price Prediction

- Built a regression model to predict housing prices using a real-world dataset
- Performed data preprocessing, feature analysis, and model evaluation

Iris Flower Classification

- Developed a classification model to predict iris species
- Applied exploratory data analysis and machine learning algorithms

Todo List Web Application

- Built an interactive task management app using HTML, CSS, and JavaScript
- Implemented dynamic add/edit task functionality with DOM manipulation

Online Shopping System

- Designed an online shopping database system using ERD and MySQL
- Implemented cart-related functionalities and database structure

Music Player

- Developed a music player system using OOP concepts in C++
- Focused on modular code structure and functionality

CERTIFICATIONS

- AWS Academy — Cloud Computing
- AWS Academy — Introduction to Machine Learning
- Google AI Professional Certificate
- Google Data Analytics Professional Certificate (in progress)
